cloud, etc.

“ ..*AUTHENTIC's*
ability to integrate with
our teams and their
unfailing commitment
created an excellent
synergy throughout our
M3 migration project... ”

CFO of Cap VI (LAURENT Group)

Take up the challenge of migrating your ERP

Your global information system must constantly change to address the industrial and organizational challenges of your company. Having a sustainable vision of your IS means managing your ERP over time and thus ongoing maintenance of your system architecture and reviewing your business processes. New ways of collaborative working, together with IT innovations mean you must constantly reassess your application. Migrating your ERP does all this and also means you get the latest technological and functional upgrades.

A coherent, global service

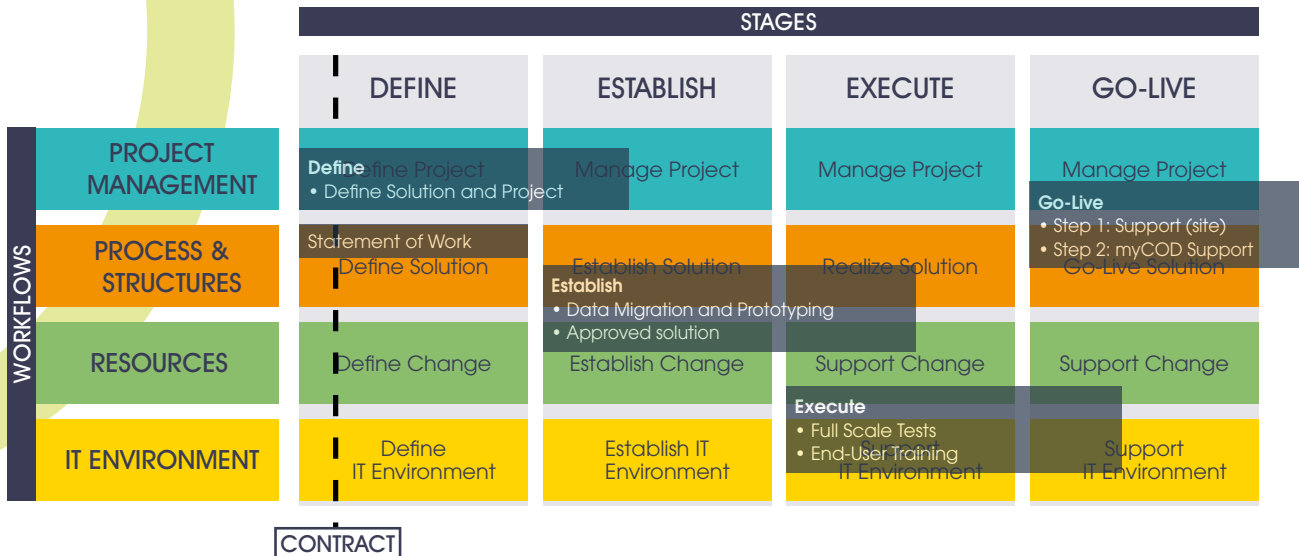

AUTHENTIC is committed to offering a comprehensive service to support you in your Infor M3 ERP migration, covering all project stages, from project management through to go-live, and including training and post-launch support.

- **Management:** definition, organization, management, assessment and control of risks using specific indicators
- **Migration:** database installation, infrastructure, archiving and cleaning, data migration and conversion, development and configuration, interfaces, forms, processes, new features and tests
- **Skills transfer:** training and support of end users
- **Assistance:** launch support and maintenance

Much more than just data migration

AUTHENTIC's offer goes far beyond standard migration services. The Complete approach exclusively developed by AUTHENTIC features local follow-up, custom services and strong commitment. It includes specific services such as database audits, data cleaning and improvement of processes. AUTHENTIC rolls out peer-to-peer migration projects between source and destination in 5 runs to ensure guaranteed success and high quality.

AUTHENTIC methodology

Pillars of successful migration

Organization and project management

Roles and responsibilities

- Customer: sponsors, project managers, key users, end users, etc.
- AUTHENTIC: consultants (business process, functional and technical), project managers, etc.

Key project management bodies

Steering committees, project committees, etc.

“The monthly steering committee meetings and the weekly project committee meetings meant that we could keep a handle on the progress of our M3 migration and maintain a steady pace...”

ISD of Cap VI (LAURENT Group)

Authentic “User Friendly”

An IT Services and Solutions company with strong growth potential, Authentic was founded in 2004 and is a recognized expert in ERP integration, particularly for Infor M3. Authentic's mission is to provide its customers with development support in France and around the world and to help them be more productive in their business processes. In keeping with its values of Freedom, Humility, Excellence and Respect, the user is always at the heart of Authentic's customer engagement.
