

AIP

Invoices workflow module

THE solution for vendor invoices automation into Infor M3®

Integration

A native Infor M3® connection

Simplicity

Ready to use, easy to learn

Productivity

ROI, low maintenance costs

Adaptability

Fully configurable

Why automate your vendor invoices process?

Managing paper invoices is often a costly and time-consuming task, which can also be a source of error. Automating your suppliers invoices process will result in a reliable, smooth, and cost-effective process.

Supplier invoices automation will provide the following benefits:

- Streamline and simplify your processes;
- Track and centralize invoicing documents efficiently;
- Comply with LSF and SOX regulations;
- Achieve productivity gains and savings of approximately 50%*.

Choose the AIP invoices workflow?

- **A unique package on the market**
AIP is the only package solution for vendor invoices automation that is fully integrated with Infor M3®, using its standards. AIP does not require any extra configuration or development in order to integrate with M3®.

- **Authentic's expertise**
Benefiting from several years of experience in the ERP sector, namely with Infor M3®, Authentic's team of developers and consultants ensures the quality and reliability of the AIP solution.

- **An optimized project methodology**
Because AIP is ready-to-use and scalable, its implementation is fast and easy.

f ... After studying the market, we chose AIP. Its integration with Movex made the difference compared to competitors...
